TWENTY-SEVENTH REGISTRATION REPORT.

1868.

TWENTY-SEVENTH REPORT

TO THE

LEGISLATURE OF MASSACHUSETTS,

RELATING TO THE

Registry and Return

OF

BIRTHS, MARRIAGES, AND DEATHS,

IN THE

COMMONWEALTH,

For the Year ending December 31, 1868.

PREPARED UNDER DIRECTION OF THE
SECRETARY OF THE COMMONWEALTH.

• WITH EDITORIAL REMARKS
BY GEORGE DERBY, M. D.,
*Secretary of State Board of Health, and University Lecturer on Hygiene
in Harvard University.*

BOSTON:

WRIGHT & POTTER, STATE PRINTERS,
79 MILK STREET (CORNER OF FEDERAL).
1870.

128902

Commonwealth of Massachusetts.

SECRETARY'S DEPARTMENT, BOSTON, March 15, 1870.

To the Honorable Senate and House of Representatives.

IN conformity with the requirements of the General Statutes, I have the honor to submit herewith the Twenty-Seventh Annual Report relating to the BIRTHS, MARRIAGES and DEATHS occurring in Massachusetts during the year 1868, and returned according to law from the several cities and towns.

The preparation of the editorial remarks and observations which accompany the tables of the Report, including the analysis and discussion of the facts therein contained, has been, as in former years, performed by Dr. GEORGE DERBY, of Boston, recently appointed Secretary of the State Board of Health.

The Tables and arrangement of the Report continue the same as in former years, with the exception of an improvement in Table X., by the substitution for the several different years of the ratio of Deaths from each cause to every 100,000 of the population, instead of the *percentage* to the whole number of

deaths. This change will facilitate the comparison of the Tables of the Massachusetts Registration Reports with those of other countries, as well as render the statements more available for ordinary purposes.

The completeness of the Returns of Births, Marriages and Deaths, made from the several towns of the Commonwealth for the year 1868, and the punctuality with which they were forwarded to this office, merit in general much commendation. A few exceptions, however, have occurred, which have occasioned more or less trouble to the department; especially in the case of the town of Charlton, from which no return whatever of Births has been received for the last year. As the law requires, the Attorney-General has accordingly been requested to enter a prosecution against the town clerk for delinquency.

It may be proper to state here that the present Report has been made ready for the Legislature and appears in print with all the promptitude possible. None but those conversant with statistical labors can form a just idea of the great amount of work involved in the compilation of several of these tables. In addition to this, a laborious preliminary examination and comparison of the returns is indispensable to secure the correction of errors, and to avoid the registration of duplicate returns of the same cases from different towns. The correction of the errors

also requires time and correspondence with delinquents. And after the tables are fully prepared, and in print, considerable time is indispensable for the preparation, by the editor, of the preliminary remarks and observations.

The work of preparing the tables, including the compilation from the original returns and the necessary computations, has been performed in this office, by the same competent hands as in former years, and with a facility and expedition obtainable only by experience. But from the necessity of the case, as above intimated, statistical reports of so elaborate a kind cannot be made ready for publication, with a proper regard to accuracy and economy, without the expenditure of greater time than is needful for the preparation of ordinary documents. Thus while the Registration Reports of Massachusetts appear at the end of one year, those of England are published not until two years from the date of the returns.

Respectfully submitted.

OLIVER WARNER,

Secretary of the Commonwealth.

TWENTY-SEVENTH REGISTRATION REPORT.

(1868.)

The accompanying tables represent the three all-important facts of birth, marriage and death as they have occurred among all the residents of Massachusetts during the year 1868. They make up an aggregate of eighty-nine thousand five hundred and eight (89,508) entries upon the records kept in the office of the Secretary of State, and are divided as follows.

Thirty-six thousand one hundred and ninety-three (36,193) children were born alive, of which number eighteen thousand five hundred and seventy-one (18,571) were males, and seventeen thousand five hundred and seventy-four (17,574) were females, while in forty-eight instances the sex was unreported.

Thirteen thousand eight hundred and fifty-six (13,856) couples, or twenty-seven thousand seven hundred and twelve (27,712) persons were married.

Twenty-five thousand six hundred and three (25,603) persons died, of which number twelve thousand eight hundred and seventy-one (12,871) were males, and twelve thousand six hundred and ninety-five (12,695) were females, while in thirty-seven instances the sex was unreported.

Comparison of these numbers with the previous year gives the following results:—

The births have increased by	1,131
The marriages have decreased by	595
The deaths have increased by	2,831

The number of births is the largest ever recorded.

The number of marriages is less than in either of the past two years, but greater than in any year preceding them.

The number of deaths has notably increased, and is greater than ever before except during the three years 1863, 1864, and 1865, when our losses were heaviest in war.

The excess of births over deaths, representing the natural increase of population, is 10,590. This is less than in 1867, but greater than in 1866. The daily natural increase is 29 persons. Taking the Census of 1865 as a basis of calculation, we find that one living child was born to every 35 persons, one person in every 45·72 was married, and one person in every 49·48 died.

The average number of living births daily was . 99·16

The average number of marriages daily was . 37·96

The average number of deaths daily was . . 70·14

The *birth, marriage, and death-rates* for 1868 were as follows :—

Births, . . . 28·56 to each 1,000 of the people.

Persons married, . 21·87 “ “ “ “

Deaths, . . . 20·20 “ “ “ “

The excess of the Birth-rate over the Death-rate was therefore 8·36 in a thousand or ·836 of one per cent.

It is to be remembered that these rates are based upon the Census of 1865, which is the latest definite information of the numbers of the people which we have. In the three subsequent years there has been unusual prosperity, manufactures have flourished, and there is much evidence to show that our population in 1868 was at least 1,300,000. This is an assumption, but a probable one, and if granted, the rates would be as follows :—

Birth-rate, 27·84

Marriage-rate, 21·32

Death-rate, 19·69

And the natural increase 8·15 in a thousand, or ·815 of one per cent.

TABLE showing the Number of BIRTHS, MARRIAGES and DEATHS
Registered in Massachusetts during the past twelve years.

YEARS.	Births.	Marriages.	Deaths.	Excess of Births over Deaths.	Births to 100 persons.	Deaths to 100 persons.	Excess of Births in 100 persons.
1857, . .	35,320	11,739	21,280	14,040	3.01	1.82	1.19
1858, . .	34,491	10,527	20,776	13,715	2.89	1.74	1.15
1859, . .	35,422	11,475	20,976	14,446	2.92	1.73	1.19
1860, . .	36,051	12,404	23,068	13,983	2.93	1.87	1.06
1861, . .	35,445	10,972	24,085	11,360	2.86	1.96	.90
1862, . .	32,275	11,014	22,974	9,301	2.62	1.86	.76
1863, . .	30,314	10,873	27,751	2,563	2.42	2.22	.20
1864, . .	30,449	12,513	28,723	1,726	2.42	2.28	.14
1865, . .	30,249	13,051	26,152	4,097	2.38	2.06	.32
1866, . .	34,085	14,428	23,637	10,448	2.69	1.86	.83
1867, . .	35,062	14,451	22,772	12,290	2.76	1.79	.97
1868, . .	36,193	13,856	25,603	10,590	2.85	2.02	.83

The above table shows how we stand in comparison with preceding years.

The birth-rate continues to improve.

The death-rate is higher than in any year except those of war.

POPULATION.

The only record of population which we are at liberty to use is that of the State census of 1865. It is unsatisfactory for several reasons. It was taken in the midst of the war, when great numbers were absent from their homes; most of these were probably counted, but a great many never returned. During the years 1866, 1867 and 1868 all classes and all industries have prospered. Our factories have been in full operation, and have attracted many persons from other parts of our own country and from Europe. Twenty to twenty-five thousand immigrants have been annually arriving at Boston by water, besides the large numbers who have come from Canada and the British Provinces overland.

The census of 1870 will show in how much all these causes have changed our population since 1865.

Meanwhile we must continue to use the census of 1865, while, at the same time, believing that the present population of the State exceeds 1,300,000.

BIRTHS.

The following table shows the number registered in Massachusetts during the past seventeen years :—

Y E A R.	Born alive.	Stillborn.	Y E A R.	Born alive.	Stillborn.
1852, . . .	29,802	598	1861, . . .	35,445	1,017
1853, . . .	30,920	568	1862, . . .	32,275	907
1854, . . .	31,997	558	1863, . . .	30,314	903
1855, . . .	32,845	725	1864, . . .	30,449	856
1856, . . .	34,445	695	1865, . . .	30,249	859
1857, . . .	35,320	739	1866, . . .	34,085	1,046
1858, . . .	34,491	747	1867, . . .	35,062	1,007
1859, . . .	35,422	733	1868, . . .	36,193	1,050
1860, . . .	36,051	1,062			

The Birth-rate for 1868, exclusive of stillborn, is 2·85 for each hundred persons, or 28·5 per thousand. That is to say, a living child was born to every 35 persons. Including stillborn, a child was born to every 34 persons.

The whole number of births is greater than ever before, and 1,131 greater than in the preceding year.

The increase of births should follow the increase of population with a certain regularity, except under the influence of war or any other great and widespread public calamity. We may reasonably expect much greater uniformity in the increase of births than in the increase of deaths, and a glance at the preceding table will show that this has been the case during seventeen years ; interrupted during the years of war, but now resuming its steady

progression. The next census will enable us to estimate pretty definitely the losses in male adult life which we suffered in those terrible years—a loss which will be shown in the increased disparity between the sexes at certain ages. This disparity is still affecting the number of births by thousands annually. Follow down the numbers from 1850 to 1860 and it will be evident that, but for the war, we should now have 38,000 or 39,000 births annually reported.

The system by which the report of births is made in the cities and towns is a faulty one, and can hardly fail to make the number registered less than it should be. The law provides that both births and deaths shall be reported by householders to the city clerks or registers, or town clerks. Deaths are thus reported through the undertakers, in order to secure burial; but births are seldom or never reported, and the clerks only ascertain their occurrence by house to house visitations, which are usually made only once in the year.

It cannot be doubted that in this way a certain number of births escape registration. In our crowded cities the poorest class are constantly changing their residence. Houses are pulled down to make way for stores, and there is no one left to report the births which have occurred in them. Their occupants move, for the most part, to other parts of the same city or town, and may there be found by the collectors of birth returns; but a portion go to other towns or States. The report of still-births seems to be deficient, as we shall show by comparison with other countries.

It is well to note this defective system of collecting birth reports, and to remember the strong probability which exists that the whole number registered is less than the whole number which has actually occurred. How great this discrepancy may be we have no means of estimating.

LIVING BIRTHS, and numbers living to one Birth in the different Counties in 1868.

COUNTIES.	Population—1865.	Living Births.	Numbers living to one Birth.
Barnstable,	34,610	745	46·46

* Roxbury transferred from Norfolk to Suffolk, January 1, 1868.

BIRTHS in Massachusetts.—*Quarterly Rates.*

PERIOD.	Numbers.	Percentage.
Quarter ending with March,	8,380	2·64
June,	8,348	2·63
September,	9,757	3·08
December,	9,708	3·06
Whole year,	36,193	2·85

The above table represents the percentage of births to popula-

tion for each quarter, supposing it to have been maintained throughout the year. The difference in the rate between the first two and last two quarters corresponds pretty nearly with the record of many previous years, but will be more apparent in the next table.

BIRTHS arranged in periods of Six Months.—*Eight Years.*

Y E A R S .	Two first Quarters.	Two last Quarters.	Difference.
1861,	16,644	18,756	2,112
1862,	15,308	16,938	1,630
1863,	14,338	15,952	1,614
1864,	14,052	16,366	2,314
1865,	14,136	16,113	1,977
1866,	15,218	18,867	3,649
1867,	15,971	19,091	3,120
1868,	16,728	19,465	2,737
Average,	15,299	17,693	2,394

In these eight years the record shows a preponderance of births in the last half of each year, and this difference, expressed in percentages, gives 46·37 in the first and 53·63 in the last six months. In England the larger number of births occur in the first half of the year, but the difference is less marked.

It is very probable that our whole birth record is an understatement of the facts, and as we know that the information is generally collected at the close of the year, it is reasonable to suppose that births occurring in the first half of the year would be those most likely to escape registration. This would happen for the most part in crowded towns, where changes are constantly taking place, and where people do not always know their neighbors. But it would hardly lead to error in the small towns of Barnstable County. Yet we find that in 1868, in the Cape Cod towns, 288 children were registered as born in the first half and 457 in the last half of the year. There is also, throughout the State, a

marked increase of births in July over June, and the rate then established is pretty steadily maintained through the rest of the year.

It seems to us probable that the difference in the birth-rate of the first and last half of the year is chiefly due to the fact that, during the summer, husbands and wives are often separated. Fishermen, seamen in the coasting trade, agricultural laborers, and men engaged in building and excavating, leave their families to follow their business wherever it may call them. The season from October to April brings many of them together again, and the happy results of the reunion are apparent in the preceding tables.

Proportion of the SEXES.—*Seventeen Years.*

[illegible]

Comparing the number of children of American born parents with the number of children of foreign born parents; it appears, from the preceding table, that the latter class shows an excess of 1,625.

Comparison with the preceding year shows that the gain of children of American parentage was 674; of foreign parentage, 84; and of mixed parentage, 248.

Percentage of American and Foreign LIVING BIRTHS in each of the past Five Years.

	1864.	1865.	1866.	1867.	1868.
American,	44·91	44·53	44·42	42·36	43·05
Foreign,	47·62	47·40	47·30	48·75	47·60
One parent foreign, . .	7·47	8·07	8·28	8·89	9·35

It appears from the above that during these past five years the American births have slightly declined,—in about the same measure that the mixed births have increased,—while the foreign births have neither increased nor diminished.

Percentages of American and Foreign LIVING BIRTHS in the past Twenty Years.

	Average. 1849-53.	Average. 1854-58.	Average. 1859-63.	Average. 1864-68.
American,	63·02	50·38	46·06	43·85
Foreign,	35·96	44·12	46·89	47·73
One parent foreign, . .	1·02	5·50	7·05	8·42

In comparing the last two columns, extending over the past ten years, it will be seen that the changes in relative numbers have been as follows: the strictly American births have diminished 2·21 per cent.; the strictly foreign births have increased ·84 of

one per cent., and the mixed births have increased 1.37 per cent. The great relative increase of foreign births is seen in the above table to have occurred between 1849 and 1858. During the past ten years the changes have been comparatively small.

Although we have in previous reports often referred to this subject, it seems well to repeat that in considering the causes of these changes it should always be remembered that every year a great number of newly arrived immigrants find employment in our busy towns and cities, while the young people of our agricultural towns go to seek their fortunes and to carry the enterprise of Massachusetts throughout the West, and more recently the South, and to every part of their own and often to other countries.

Plural Births.—358 women gave birth to 722 children; 352 women gave birth to twins, and 6 women gave birth to triplets. The great laws of Nature, unseen in the individual family, become apparent when numbers are included, and are found to be inflexible. Every year not only shows the proportion of the sexes to be the same, but the apparently fortuitous occurrence of plural births is part of the same great plan. The proportion of women in labor who give birth to more than one child is very nearly as one to a hundred in each year of our record.

Illegitimates.—The number reported is 366—74 more than last year—191 of American, 148 of foreign and 27 of unknown parentage. 90 cases occurred in the three State almshouses.

Stillborn.—The whole number reported is 1,050, or 43 more than last year. There is reason to believe, from the distant interval at which the record of all births are collected, that ours is incomplete. The following information from other countries, in some of which, as in France, Austria and Prussia, the laws concerning all similar matters are strictly observed, will perhaps throw light on this supposition.

STILLBORN in Massachusetts as compared with other countries.

C O U N T R I E S .	Period of Observation.	Per 1,000 Births.
Netherlands,	1858-62, . . .	51.72
Belgium,	1857-64, . . .	46.20
Saxony,	1861, . . .	44.90
Norway,	1860, . . .	44.05
France,	1860-64, . . .	43.46
Prussia,	1862-64, . . .	43.50
Hanover,	1860-64, . . .	37.83
Baden,	1859-63, . . .	34.48
Switzerland,	1862, . . .	33.05
Bavaria,	1858-62, . . .	32.26
Massachusetts,	1864-68, . . .	28.19
Italy,	1863-67, . . .	21.00
Austria,	1861-63, . . .	19.29

It appears from the above that the rate varies exceedingly, so much, indeed, that it seems probable that it is chiefly due to the degree of care used in the collection of these facts.

MARRIAGES.

The whole number reported for 1868 is 13,856, which is a falling off of 595 from the previous year.

The following table gives the number for the past five years:—

MARRIAGES registered in Massachusetts, 1864–1868.

	1864.	1865.	1866.	1867.	1868.
Marriages,	12,513	13,052	14,428	14,451	13,856
Persons married,	25,026	26,104	28,856	28,902	27,712

One person in every 45·72 of the whole population was married during the year.

MARRIAGES in Massachusetts.—*Quarterly Aggregates and Percentages.*

THREE YEARS.	1st Quarter.	2d Quarter.	3d Quarter.	4th Quarter.
1866,	3,057	3,751	3,151	4,441
1867,	3,252	3,658	3,137	4,404
1868,	3,085	3,395	3,004	4,372

PERCENTAGES.

1866,	21·23	26·05	21·88	30·84
1867,	22·50	25·31	21·71	30·48
1868,	22·27	24·50	21·67	31·56

The largest number of marriages always occur in Massachusetts in the fourth quarter, the next largest in the second quarter,

and usually, as this year, the smallest number in the third quarter. The largest number in any month occurred in November, the month of "Thanksgiving"; the smallest number in March.

The next table gives some curious facts with regard to certain marriages, by which it plainly appears that neither disparity of age nor any number of previous marriages can outweigh the inclinations of the parties in interest.

Among the most remarkable marriages for the year are the following: one man of 65 was married, for the sixth time, to a maiden of 38; another of 84 was married to a woman of 65, both for the second time; a man of 80 was united, for the second time, to a spinster of 40; a man of 77 was married, for the fourth time, to a widow of 66. There have been ten marriages of widowers, whose ages were 70 and upwards, to females as their first marriage. The youngest marriages recorded, of females, are those of two men of 21 and 24 to young girls of 13. There were also five girls of 14 years each married to young men of 21, 22 and 23. The youngest marriage of a boy was one of 16 to a girl of the same age. There were two other youths of the same age married to maidens of 18 and 24. But 144 males under 21 were married, while 540 maids were married before and at that age. Two widowers of 84 were united to widows of 65 and 52; also a widower of 80, for the third time, to a widow of 78, it being her second marriage. A bachelor of 70 was married to a young widow of 34; a widower, for the fourth time, was united to a spinster of 66. The fourth marriage of a man of 42 is reported, to a maiden of 29. A widower of 37 was married, for the second time, to a widow of 20, it being her third marriage! Also, a young widower of 25 was united, for the second time, to a widow of 68, who had been once before married. A man of 70 was married, for the first time, to a widow of 34.

NATIVITY OF PERSONS MARRIED in the several Counties of the State.—*Numbers.* 1868.

Foreign,	33·82	34·78	34·27	35·15	35·42

It is not a little remarkable that these percentages should be maintained so steadily during ten years. They may be taken to represent, *in so far as it is possible to represent them*, the effective force of the two classes; the comparative numbers of the American-born and foreign-born people at self-supporting ages, leaving out of the account infancy and old age.

Many, classed as Americans, are certainly the American-born children of Irishmen, Germans, Nova Scotians and Englishmen. The attempt to distinguish these from the descendants of immigrants of a century or two ago is becoming impossible.

D E A T H S .

The whole number reported for 1868 is larger than in 1867, although not as large as in the three most fatal years of war.

A comparison with nine previous years is given in the following table:—

Deaths registered in Massachusetts for Ten Years.—*Numbers.*

	1859.	1860.	1861.	1862.	1863.
Deaths,	20,976	23,068	24,085	22,092	27,751

Deaths registered in Massachusetts—Concluded.

	1864.	1865.	1866.	1867.	1868.
Deaths,	28,723	26,152	23,637	22,772	25,603

The death-rate for the past seventeen years is given in the next table.

DEATH-RATE for Seventeen Years.

	Ten years. 1852-61.	1862.	1863.	1864.	1865.	1866.	1867.	1868.
Deaths to 100 living, .	1,843	1,774	2,215	2,280	2,064	1,865	1,797	2,020
Living to one death, .	54	56	45	44	48	54	55	49

This is rather a marked increase of the rate since the last year, the probable causes of which we shall refer to in subsequent pages. It would be diminished if we could know the actual

population for the year, but it is necessary to use the census of 1865 as a basis for calculations.

MORTALITY of Massachusetts in Six Geographical Divisions.—
1868.

DIVISIONS.	Population. 1865.	Deaths. 1868.	Deaths to 100 persons living.	Persons liv- ing to one Death.
1. Metropolitan, (City of Boston, } including Roxbury,) . . }	220,744	5,519	2.50	40
2. North-Eastern, (Essex, and parts } of Suffolk and Middlesex,) . }	379,495	7,852	2.07	48
3. South-Eastern, (Dukes and Nan- } tucket, Barnstable, Plymouth, } Bristol and Norfolk, exclusive } of Roxbury,) . . . }	283,940	5,127	1.80	55
4. Midland, (Worcester, and part of } Middlesex,) . . . }	190,729	3,619	1.89	52
5. Valley, (Franklin, Hampshire } and Hampden,) . . . }	135,179	2,516	1.86	53
6. Western, (Berkshire,) . .	56,944	970	1.70	59

The death-rate has increased in each of these Divisions since the previous year.

PERSONS living to one Death.

YEARS.	Metropoli- tan.	North- Eastern.	South- Eastern.	Midland.	Valley.	Western.
1867, . . .	43	55	63	56	60	64
1868, . . .	40	48	55	52	53	59

DEATH-RATE in the Counties.—1868.

COUNTIES.	Population—1865.	Deaths to 100 living.	Persons living to one Death.
Barnstable,	34,610	1.42	70
Berkshire,	56,944	1.70	57
Bristol,	89,395	2.12	47
Dukes,	4,200	1.62	62
Essex,	171,034	1.86	53
Franklin,	31,340	1.51	67
Hampden,	64,570	2.19	45
Hampshire,	39,269	1.59	63
Middlesex,	220,384	2.19	45
Nantucket,	4,748	1.64	61

Worcester,	162,912	1.93	51
Whole State,	1,267,031	2.02	49

* Roxbury a part of Suffolk County.

Barnstable shows the smallest mortality in a given number of the people. Franklin comes next, and then Hampshire. No one can fail to observe the connection between this small mortality and the existence of a scattered rural population. There are few large towns in these counties, and a small proportion of persons of foreign birth. Next in order come the Island counties, with the same kind of population, but so small in numbers as to prove little. Then Norfolk, Berkshire, Plymouth, Essex, Worcester, Bristol, Hampden, Middlesex, and lastly Suffolk.

The influence of a crowded population upon the death-rate will be still more apparent by an examination of the mortality of the following cities and large towns.

DEATH-RATE in the Centres of Population.

Fall River,	3.41	Salem,	2.15
Lowell,	2.77	Lynn,	2.13
Chicopee,	2.77	Milford,	2.05
Somerville,	2.74	Chelsea,	2.01
Adams,	2.65	Springfield,	2.01
Worcester,	2.52	Taunton,	2.01
Boston,*	2.50	Lawrence,	1.96
Charlestown,	2.39	Newburyport,	1.96
Cambridge,	2.25	Pittsfield,	1.83
Fitchburg,	2.25	Weymouth,	1.76
Gloucester,	2.24	New Bedford,	1.73
Northampton,	2.20	Dorchester,	1.72

* Roxbury included.

Seasons. DEATHS by Quarters of the Year.

	Deaths in 1868.	Percentage.
Deaths registered in the Quarters ending with—		
March,	6,099	23.8
June,	5,570	21.7
September,	7,899	30.9
December,	6,035	23.6

The mortality by months stands as follows, the first named being greatest, and the last named being least: August, September, July, March, October, December, April, February, January, November, May, June.

The following table will show what a striking difference exists in the mortality of the seasons in Massachusetts and in England:—

COMPARISON of Mortality by Seasons, in Massachusetts and in England.—*Percentages.*

	First Quarter.	Second Quarter.	Third Quarter.	Fourth Quarter.
Massachusetts, (5 years, 1864-1868,) .	24.0	22.1	30.2	23.7
England, (5 years, 1861-1865,) . .	28.3	24.4	22.6	24.7

In Massachusetts, the greatest mortality is in midsummer. In England, the least mortality is in midsummer.

In England, the season of greatest cold is the season of greatest mortality. In Massachusetts, the season of greatest cold, the two months when the average temperature is below 30° Fahrenheit, is a season of comparative health—of a mortality less than the average of the year.

Our least mortality is in May and June.

Sex.—The deaths in 1868 were very nearly equally divided between the sexes, the males preponderating by 176.

PROPORTIONS of the Sexes when distinguished in the annual deaths.

	Annual Average. 1852-61.	Four Years of War. 1862-65.	1866.	1867.	1868.
Males,	10,487	13,602	11,601	11,350	12,871
Females,	10,602	12,748	12,003	11,369	12,695
No. of males to each 100 females, . . . }	98.9	106.7	96.6	99.8	101.4

DEATHS in Massachusetts in 1868.—*Ages, Sex, Rates.*

	S E X.	Under 1 year.	Under 5 years.	20 to 30.	All others.	Totals.
Number of deaths, {	Males, .	2,952	5,058	1,146	6,686	12,890
	Females, .	2,469	4,308	1,307	7,098	12,713
	Totals, .	5,421	9,366	2,453	13,784	25,603
Percent. of deaths {	Males, .	22.90	39.24	8.89	51.87	100.
for each sex, . {	Females, .	19.42	33.89	10.28	55.83	100.
Percentages for {	Males, .	11.53	19.76	4.48	26.11	50.35
each sex of all {	Females, .	9.64	16.83	5.10	27.72	49.65
deaths, . . {	Totals, .	21.17	36.59	9.58	53.83	100.
Females to 100 {	. .	83.6	85.2	114.	106.2	98.6
males, 1868, . }						
Females to 100 {	. .	82.5	86.3	115.5	107.1	100.1
males, 1867, . }						
Females to 100 {	. .	81.	87.	110.4	113.2	103.5
males, 1866, . }						

Average Age at DEATH.—1866–1868.

	1866.	1867.	1868
Of all who died,	30.92	30.05	29.92
Of all above 20 years of age,	52.08	52.58	53.44

An inspection of the above figures shows that the mortality of 1868, which we have already seen was large, exceeded the average in the early period of life, and was even less than the average after the age of maturity.

The following list, which is larger than usual, gives the names of all who died in Massachusetts, in 1868, aged over one hundred years.

Aged over One Hundred Years.—Died in 1868.

Date of Death.	NAMES.	Age.	Place of Death.	Birthplace.	Whether previously Married or Single.
1868.					
Feb. 5, . . .	Joshua Converse, . . .	101	Woburn, . . .	Woburn, . . .	Married.

The following analysis of the Nativity Table for two years will show what great differences exist in the mortality of these two classes of our population at different ages. The children of half-foreign parents are equally divided in calculating percentages.

		Under 5 years.	5 to 20	20 to 50	Over 50
1867,	American parents, . . .	2,947	1,197	3,182	4,958
	Foreign " . . .	4,432	987	2,536	1,393
	Half-foreign " . . .	504	101	100	58
	<i>Percentages.</i>				
	American parents, . . .	40.6	54.6	55.5	77.8
	Foreign " . . .	59.4	45.4	44.5	22.2
1868,	American parents, . . .	3,501	1,189	3,280	5,248
	Foreign " . . .	5,067	1,193	2,763	1,855
	Half-foreign " . . .	667	110	82	69
	<i>Percentages.</i>				
	American parents, . . .	41.5	49.9	54.2	73.6
	Foreign " . . .	58.5	50.1	45.8	26.4

This shows: 1st, a great excess of mortality among the young children of foreign-born parents; 2d, that in early adult life the number of deaths in the two classes is about equal; and 3d, that after fifty years of age the deaths are about three of American to one of foreign parents.

We do not know the proportions of these two classes of the living population, and have no present means of ascertaining it. Possibly the next census may give us the information; no previous census has done so.

It is apparent enough, however, that the ages of these two classes are widely different, and their mortality cannot, therefore, be fairly set against each other, as indicative of greater or less tenacity of life. The great mass of our population over fifty years of age is of American parentage.

It will be seen, by referring to the Parent-Nativity table, that in the column of deaths at seventy years and upwards, 2,882 were in the American and 646 in the Foreign class.

This is chiefly owing to the fact that the great immigration of this century commenced less than fifty years ago; but it may also be suspected that the Celtic race, when transplanted to America, does not often reach to threescore years and ten. This, however, cannot be proved by any registration statistics, for the reasons before referred to.

CAUSES OF DEATH.

The weather in 1868 was thus recorded at two different points within the limits of the State.

MONTHS.	CAMBRIDGE.		AMHERST.	
	Mean Temperature.	Rain-Fall.	Mean Temperature.	Rain-Fall.
January,	22·0	2·53	20·2	3·52
February,	20·1	0·95	18·2	1·03
March,	32·3	1·85	33·8	2·25

October,	46·4	1·18	45·3	1·37
November,	36·5	4·31	36·4	4·79
December,	25·6	1·74	22·8	1·47
Mean temperature for the year, .	45·3	—	45·2	—
Total rain-fall in inches, . .	—	39·89	—	48·57

The preceding record is in some respects remarkable. As compared with the average temperature of the past half century, the mean temperature for the year is about four degrees lower than usual. Instead of 28° in January and February, which is the usual record at Cambridge, we have in those months, in 1868, a temperature of 21°. March, April and May were also several degrees colder than usual; but in July we find an average record

of nearly 74, which is more than two degrees higher than usual. This excessive heat, contrasted with the preceding unusual cold, becomes of special interest when we observe the large mortality from Cholera Infantum which occurred during the summer.

The amount of rain-fall corresponds very nearly with preceding years.

The chief object of this, the most important division of our Report, is to discover where the mortality for the year occurred, what were the diseases which proved fatal, at what ages, at what seasons, under what circumstances, and to show how these various conditions differed from those existing in previous years.

The whole number of deaths is larger than might have been expected, notwithstanding the very considerable increase of population which has doubtless taken place in this time of general prosperity.

The first thing which strikes us in examining the figures is the unusual mortality in infancy. Always very great, it is this year still greater, both taken by itself and in comparison with deaths at all ages. Between 36 and 37 per cent. of all deaths occurred under five years of age.

In 1866, the percentage of such deaths was 33, and in 1867 it was 34.

There was also, in 1868, an excess of deaths at advanced ages.

The following table will show, by comparison with 1867, where the mortality was greatest in 1868, and that it fell chiefly upon the extremes of youth and age:—

	Under 5 years.	5 to 60.	60 and upwards.
1867,	8,001	9,726	4,936
1868,	9,389	10,417	5,682
Increase,	1,388	691	746
Percentage of increase,	17·3	7·1	15·1

The percentage of deaths from *zymotic* diseases in 1868 was 27·3, which is higher than for several previous years; from *con-*

stitutional diseases, 25·0 ; from *local* diseases, 28·4 ; from *developmental* diseases, 15·3 ; and from *violent* deaths, 4·0.

The following table will show the mortality, from seven principal diseases of the *zymotic* class, in comparison with the numbers recorded in the four previous years :—

Y E A R S .	Dysentery.	Typhus.	Whooping Cough.	Croup.	Diphtheria.	Measles.	Scarlet Fever.
1864, . .	1,186	1,344	235	768	1,231	320	1,503
1865, . .	1,548	1,694	363	504	672	136	807
1866, . .	949	1,091	287	431	399	109	385
1867, . .	658	965	297	356	251	194	828
1868, . .	685	896	247	485	297	287	1,369

During the year, ninety-six persons were killed by railroad accidents, twenty-five died by poison, seventy died by burning or scalding, one hundred and sixty-nine were drowned, eighty-eight committed suicide in various ways, sixteen were killed by others, sixty-two were reported “lost at sea,” one was killed by lightning, *eighty-five died by excessive heat* and three by excessive cold.

Two men were executed, being the first for several years.

Diphtheria.—The gradual decline of this disease, to which we referred in the last report, is slightly interrupted. The number is 297, or an increase of 46. This is trifling in comparison with the mortality of 1863–4. Nearly one-third of all these deaths occurred in Bristol County. Deaths from diphtheria are reported in all the months, but the larger number were in the season of cold. There was, as usual, a preponderance of female deaths.

Dysentery.—was not very fatal. Of the 685 deaths from this cause, more than half were children under five years of age. August and September were, as usual, the months in which the largest number died.

Typhus.—The number of deaths was unusually small. We find no year in the past seventeen when the mortality was not greater.

Measles.—destroyed 233 children under five years of age, 28 between five and ten, 9 between ten and twenty years, and seventeen adults.

Scarlatina.—This justly dreaded disease prevailed extensively in 1868. During the past ten years it has sometimes been equally fatal, but the increase in 1868 over the three preceding years is very marked. The mortality to each 100,000 of population, in the past five years, stands as follows:—

1864.	1865.	1866.	1867.	1868.
119	63	30	64	106

Physicians know very well that the proportion of deaths to persons attacked varies exceedingly in different years—in other words, that the intensity of the scarlet-fever poison is sometimes much greater than at others. Scarlet fever may be very prevalent in certain years and cause but few deaths. These are facts not susceptible of proof by the registration of deaths, yet which would be very apparent could we have a registration of sickness for each

year—something much to be desired, but which now seems impracticable.

Deaths occurred in all the months, but with a sensible diminution in the summer. The distribution among the counties was very unequal; Berkshire, Essex, Middlesex and Suffolk suffering severely, while the proportions in Hampden and Barnstable were comparatively small. Ninety-two per cent. of the deaths from scarlatina were of children under ten years of age.

Croup—was not very destructive. Four hundred and eighty-five deaths were reported, occurring in all the months, but with a notable decrease in the summer.

Cholera Infantum—caused the death of 1,561 children in 1868. This is more than six per cent. of the whole mortality at all ages. It is the largest number ever reported in Massachusetts.

This massacre of the innocents—this sacrifice of the most feeble portion of the population, that portion having least power to resist the influence of dirty and unventilated streets and alleys, of decomposing organic matter left to rot through the negligence of health authorities—nearly all occurred in the centres of population. The rural districts, as usual, hardly felt the destructive influence. Barnstable, Berkshire, Franklin, Hampshire, Plymouth and Dukes and Nantucket, with a population of 234,000, all together report but 93 deaths from this disease. On the other hand, Suffolk reports 487, Middlesex 367, Essex 187, Worcester 172 and Bristol 113. Wherever children breathe the putrid air of crowded towns in the season when putrescence is most active, there we find the mortality from cholera infantum.

It is more than probable that the excessive and unusual heat of July had an important influence on this mortality of 1868. Although the greater number of deaths, as usual, occurred in August, the heat of the preceding month had doubtless enfeebled the little ones and made them less able to resist the unfavorable influences around them.

The remedy for this annual pestilence we believe to lie in *public cleanliness*. Clean the towns. Remove the horse-manure of the streets and the house garbage before it rots and poisons the air. Disinfect the vaults with dry earth or with copperas. Carry all the liquid refuse by tight drains and sewers far away from among

the living. Give the children air as free from bad smells and decomposition as they would get in the country, and cholera infantum will cease to be the annual pestilence which it now is in our crowded towns.

Consumption.—4,437 persons died in Massachusetts from this disease in 1868. The excess of female deaths was 331. The effect of season on mortality seems very small. The course of the disease is generally slow, and the fatal event may occur in any month. The largest number (407) occurred in March, and the smallest number (340) in June.

All ages are included in the fatal list, but the greatest number in any period of life is found between the ages of 20 and 30.

The following division of deaths between the periods of childhood, maturity and age, will show more distinctly the fact that it cuts down our population at the time when bodily vigor should be greatest:—

DEATHS from Consumption in 1868.

	Under 15.	15 to 50.	Over 50.

Worcester,	162,912	547	18·6	298

* Population of Roxbury transferred from Norfolk to Suffolk.

In the preceding table, it is to be observed, there are two quite distinct subjects of comparison between the different counties: 1st, the relation which consumption bears to all mortal diseases; 2d, the degree of havoc it occasions in the whole living population. The two by no means correspond.

Barnstable, which has the lowest death-rate from all diseases, shows a rather high rate from consumption. Suffolk, which has the highest death-rate from all diseases, shows a lower rate from consumption than either Plymouth or Bristol.

This will be more apparent by placing the counties in the order which they occupy in several respects, those having the greatest mortality being placed first.

ORDER of Mortality by Counties, 1868.

Barnstable.	Dukes and Nantucket.	Dukes and Nantucket.

The diminishing mortality from consumption in Massachusetts was the subject of special remark in the Report of 1867. The table by which this gratifying fact was made apparent is again presented, with the addition of 1868.

MORTALITY from Consumption in Massachusetts in each of the past sixteen years.

Y E A R S .	Population.	No. of Deaths from Consum- tion.	Deaths from Con- sumption to each 100,000 liv- ing.
1853,	1,075,007	4,593	427

1868,	1,289,200	4,437	344

Pneumonia.—The whole number of deaths from this disease was somewhat greater than in the preceding year, yet not excessive. 833 males and 818 females. Deaths occurred in all the months, but the greatest number, as is always the case, in the season of cold. The three months of February, March and April show the highest mortality. These months were several degrees colder than they have usually been in Massachusetts.

650, or 39 per cent. of the whole number of deaths from pneumonia, occurred under five years of age, and 453, or 27 per cent. of the whole number, at ages above sixty.

DEATHS from Pneumonia in the Counties, 1868.

Smallpox.—This frightful disease is always among us, ready to propagate itself, by contagion, wherever its seed may find a receptive soil. In the twenty-seven years of registration in Massachusetts, 3,003 deaths from smallpox have been recorded. The number in a single year has sometimes risen to 300, and again has fallen to 12. In 1868, twenty fatal cases were reported. The price of public safety, as regards this dreadful pest, is constant vigilance on the part of the health authorities to make sure that the whole population is protected by vaccination.

We have so long enjoyed the advantages of this greatest of all discoveries in preventive medicine that the present generation is in danger of forgetting the horrors of the period when everybody was exposed to the peril of unmitigated smallpox. How complete is the protection through careful, systematic and thorough vaccination is made evident by the following facts. In Ireland, vaccination was made compulsory in 1863. Since that period the Irish

Poor Law Commissioners have carried out the provisions of law, and the whole population has been vaccinated. The results are seen in the following figures, from which it appears that the Irish physicians have banished smallpox from their island as Saint Patrick is said to have banished the snakes.

Whereas, in the periods 1830-40, 1840-50 and 1850-60, the respective annual average mortalities had been 5,800, 3,827 and 1,272, in the years 1864, 1865, 1866, 1867, 1868, they were 854, 347, 187, 20 and 19, respectively. In the first half of 1869 the whole number was three.

The deaths from smallpox in Ireland since 1866 have been so few that it is fair to suppose the cases have been generally imported from abroad. The population being about five and a half millions, we should have, if equally well protected, about four deaths a year in Massachusetts.

Our people need no more compulsion than that which the statutes have authorized for many years, and which public opinion has for the most part enabled our health and school authorities to enforce; but our watchfulness should never be relaxed against this insidious and terrible foe.

* *Manner* not stated in the Returns.

† Including 66 deaths from "Hemorrhage," 76 from "Tumor," and 50 from "Inflammation."

NOTE.—Where a person is "found drowned," the case is classed under "accident or negligence," (V.—1. 4.) Cases of death from cold, heat, drinking cold water, lightning, surgical operation, and exposure, are classed under "accident or negligence," (V.—1. 6.) As "stricture of the urethra" is almost invariably the result of gonorrhœa, it is classed as (1; 2; 2).—[Dr. FARR.]

TABLE X.—CAUSES OF DEATH.—COMPARATIVE MORTALITY.

Exhibiting the Number of Deaths from Specified Causes, (Nosologically Arranged,) during each of the Five Years 1864-65-66-67-68, with the Number of Deaths, annually, to 100,000 of the Population;—also the Number and Percentage of Deaths during the Five Years 1864-68, and during the entire Registration Period of Twenty-seven years and eight months, ending Dec. 31, 1868.

[Still-births included.]

							6. Otherwise, . . .											
							V.—2. <i>Battle.</i>											
							V.—3. <i>Homicide.</i>											
							V.—4. <i>Suicide.†</i>											
							V.—5. <i>Execution.</i>											
							V.—6. <i>Viol't D'ths, not clas'd.</i>											
							Sudden, cause unascertained,											
							Causes not specified,† . . .											

* Casualties of all kinds.

† Totals; manner not stated.

‡ Including deaths from "Hemorrhage," "Tumor," and "Inflammation."

NOTE.

Previously to the adoption, in 1855, of the present NOSOLOGICAL CLASSIFICATION, the term "Infantile" of the tables of the Registration Report had included not only the Deaths *returned* as "Premature" or "Infantile," but those under two years of age from "Debility" and "Unknown" causes; and this arrangement has been continued until the present year.

In order to distinguish these cases more precisely hereafter, the deaths returned as "Infantile" or "Premature Birth," will be stated separately in Table VIII. of the present and future reports; (also combined in Tables IX. and X.) Deaths, at whatever age, returned from "Debility," or "Unknown" causes, or of which no cause is stated, will be classed under "Debility," or "Unknown."

In the Registration Report of 1855 an error recently discovered deserves notice. The words "Premature Births" occur on page 106, instead of the proper term "Infantile, Premature, &c." Of the 1,339 there given, an examination of the original returns shows that 17 were returned as "Premature," 554 as "Infantile," and 768 (of infantile ages,) as "Debility," "Unknown," or no cause stated.

A statement of the Deaths for six years, 1863-68, classed "Infantile," in Table VIII.,—"Infantile, Premature, &c.," in Tables IX. and X., is here presented:—

RETURNED AS—	1863.	1864.	1865.	1866.	1867.	1868.
"Premature," . .	78	62	93	109	115	181
"Infantile," . . .	312	443	434	471	440	446
"Unknown," &c., .	869	788	811	798	896	—
Total "Infantile,"	1,259	1,293	1,338	1,378	1,451	627

TABLE XI.—OCCUPATIONS.

Distinguishing by Occupations (statistically classified) the Number, with their Average and Aggregate Ages, of Persons in the State (in two geographical divisions) whose Occupations were specified, and whose Deaths were registered, during the year 1868;—also in the State (entire) during the period of Twenty-five Years and Eight Months, ending with December 31, 1868.

[This Table includes only persons over twenty years of age.*]

APPENDIX.

L A W S

CONCERNING THE REGISTRATION OF BIRTHS, MARRIAGES AND DEATHS.

[General Statutes—Chapter 21.]

OF THE REGISTRY AND RETURNS OF BIRTHS, MARRIAGES, AND DEATHS

SECTION

1. City and Town Clerks to obtain, record, and index facts concerning Births, Marriages, and Deaths.
2. Parents and others to give notice of Births, and Deaths.
3. Physicians to give Certificate of Cause of Death, when requested. Penalty.
4. Sextons, Undertakers, &c., to make returns to Clerks of Cities and Towns. Clerks to give Certificate of Registry of Death to the Person having charge of funeral rites *preliminary* to Interment, for delivery, &c. If Interment takes place without such Certificate, notice thereof to be given, under penalty of twenty dollars.
5. Clerk annually to transmit certified Copies of Records to Secretary.

SECTION

6. Record or Certificate of Clerk to be *prima facie* evidence in Legal Proceedings.
7. Clerks—Fees of, payable by City or Town; Accounts of, to be certified by Secretary. Penalty for neglect of duty.
8. Superintendents of State Almshouses to record and return to Secretary, births and deaths therein.
9. Secretary to furnish Blank Books for Records and Forms for returns, with Instructions. Clerks to distribute the Blank Forms for Returns.
10. Secretary,—to cause Returns to be bound, &c.; to Report annually to Legislature, &c.; to do all other acts necessary to secure the execution of the provisions of this chapter.
11. Registrars may be chosen, in certain cases, in place of Town Clerks.

SECTION 1. The clerk of each city and town shall receive or obtain, and record, and index, the following facts concerning the births, marriages, and deaths, therein, separately numbering and recording the same in the order in which he receives them, designated in separate columns:

In the record of births, the date of the birth, the place of birth, the name of the child, (if it have any,) the sex and color of the child, the names and the places of birth of the parents, the occupation of the father, the residence of the parents, and the date of the record;

In the record of marriages, the date of the marriage, the place of marriage, the name, residence and official station of the person by whom married, the names and places of birth of the parties, the residence of each, the age and color of each, the condition of each, (whether single or widowed,) the occupation, the names of the parents, and the date of the record;

In the record of deaths, the date of the death, the name of the deceased, the sex, the color, the condition, (whether single, widowed, or married,) the age, the residence, the occupation, the place of death, the place of birth, the names and places of birth of the parents, the disease or cause of death, the place of burial, and the date of the record.

SECTION 2. Parents shall give notice to the clerk of their city or town of the births and deaths of their children; every householder shall give like notice of every birth and death happening in his house; the eldest person next of kin shall give such notice of the death of his kindred; the

keeper of a workhouse, house of correction, prison, hospital, or almshouse, except the State almshouses at Tewksbury, Bridgewater, and Monson, and the master or other commanding officer of any ship shall give like notice of every birth and death happening among the persons under his charge. Whoever neglects to give such notice for the space of six months after a birth or death, shall forfeit a sum not exceeding five dollars.

SECTION 3. Any physician having attended a person during his last illness, shall—when requested within fifteen days after the decease of such person—forthwith furnish for registration a certificate of the duration of the last sickness, the disease of which the person died, and the date of his decease, as nearly as he can state the same. If any physician refuses or neglects to make such certificate, he shall forfeit and pay the sum of ten dollars to the use of the town in which he resides.

SECTION 4. Every sexton, undertaker, or other person having charge of a burial-ground, or the superintendent of burials having charge of the obsequies or funeral rites preliminary to the interment of a human body, shall forthwith obtain and return to the clerk of the city or town in which the deceased resided or the death occurred, the facts required by this chapter to be recorded by said officer concerning the deceased, and the person making such return shall receive from his city or town the fee of ten cents therefor.

The clerk, upon recording such facts, shall forthwith give to the person making such return, a certificate that such return has been made, which certificate such person shall deliver to the person having charge of the interment, if other than himself, before the burial when practicable, otherwise within seven days thereafter. When a burial takes place and no certificate is delivered as aforesaid, the sexton, undertaker, or other person having charge of the interment, shall forthwith give notice thereof to the clerk under penalty of twenty dollars.

SECTION 5. The clerk of each city and town shall annually on or before the first day of February, transmit to the secretary of the Commonwealth, certified copies of the records of the births, marriages, and deaths, which have occurred therein during the year ending on the last day of the preceding December.

SECTION 6. The record of the town clerk relative to any birth, marriage, or death, shall be *primâ facie* evidence, in legal proceedings, of the facts recorded. The certificate signed by the town clerk for the time being shall be admissible as evidence of any such record.

SECTION 7.* The clerk shall receive from his city or town for obtaining, recording, indexing, and returning to the secretary of the Commonwealth, the facts in relation to a birth, twenty cents; a marriage, ten cents; a death, twenty cents for each of the first twenty entries, and ten cents for each subsequent entry, as the same shall be certified by the secretary of the Commonwealth; but a city or town containing more than ten thousand inhabitants may limit the aggregate compensation allowed to their clerk. He shall forfeit a sum not less than twenty nor more than one hundred dollars for each refusal or neglect to perform any duty required of him by this chapter.

SECTION 8. The superintendents of the State almshouses at Tewksbury, Bridgewater, and Monson, shall obtain, record, and make return of

* See chap. 138, on p. cliii, following.

the facts in relation to the births and deaths which occur in their respective institutions, in like manner as is required of town clerks. The clerks of said towns shall, in relation to the births and deaths of persons in said almshouses, be exempt from the duties otherwise required of them by this chapter.

SECTION 9. The secretary shall, at the expense of the Commonwealth, prepare and furnish to the clerks of the several cities and towns, and to the superintendents of the State almshouses, blank books of suitable quality and size to be used as books of record under this chapter, blank books for indexes thereto, and blank forms for returns, on paper of uniform size; and shall accompany the same with such instructions and explanations as may be necessary and useful. City and town clerks shall make such distribution of blank forms of returns furnished by the secretary as he shall direct.

SECTION 10. The secretary shall cause the returns received by him for each year to be bound together in one or more volumes with indexes thereto. He shall prepare from the returns such tabular results as will render them of practical utility, make report thereof annually to the legislature, and do all other acts necessary to carry into effect the provisions of this chapter.

SECTION 11. Any city or town containing more than ten thousand inhabitants, may choose a person other than the clerk to be registrar, who shall be sworn, and to whom all the provisions of this chapter concerning clerks shall apply. The returns and notices required to be made and given to clerks shall be made and given to such registrar under like penalties.

SECTION 12. The secretary of this Commonwealth shall prosecute, by an action of tort, in the name of the Commonwealth, for the recovery of any penalty or forfeiture imposed by this chapter.

SECTION 13. Any city or town may make rules and regulations to enforce the provisions of this chapter, or to secure a more perfect registration of births, marriages, and deaths, therein.

[General Statutes—Chapter 106.]

OF MARRIAGE.

SECTION	SECTION
7. Notice of Intention of Marriage to be entered with Town Clerk.	14. Marriages, by Whom to be solemnized, and in what Place.
8. Certificate of Record of Intention to be given to Parties by Clerk. Such certificate to be delivered to Person before whom Marriage is to be solemnized.	15. Marriages among Quakers.
9. Certificate not to issue to certain Minors, except on application of Parent, &c. Penalty.	16. Persons solemnizing Marriage to keep Record and to make Returns to certain Town Clerks. Clerk to record all Marriages so returned.
10. Clerk may require Affidavit of Age.	17. Penalty for not making Returns.
11. Penalty for making False Statement.	18. Penalty for solemnizing a Marriage unlawfully.
12. Parties living in State and Married out of it, to file certificate on return. Penalty.	19. Penalty, on Person not authorized to Marry.
13. No Person to solemnize Marriage of a Minor, without consent of Parents, if any in the State competent to act.	21. Record of Marriage, or certified copy thereof, presumptive evidence of Marriage.

SECTIONS 1, 2 and 3. [Marriage between certain relatives prohibited.]

SECTION 4. [Polygamy forbidden.]

SECTION 5. [Marriage contracted by insane persons or idiots, void.]

SECTION 6. [Marriages of persons marrying out of the State in order to evade, &c., void.]

SECTION 7. Persons intending to be joined in marriage, shall, before their marriage cause notice thereof to be entered in the office of the clerk, or registrar of the city or town in which they respectively dwell, if within the State. If there is no such clerk or registrar in the place of their residence, the entry shall be made in an adjoining city or town.

SECTION 8. The clerk or registrar shall deliver to the parties a certificate under his hand, specifying the time when notice of the intention of marriage was entered with him, together with all facts in relation to the marriage required by law to be ascertained and recorded, except those respecting the person by whom the marriage is to be solemnized. Such certificate shall be delivered to the minister or magistrate in whose presence the marriage is to be contracted, before he proceeds to solemnize the same.

SECTION 9. If a clerk or registrar issues such certificate to a male under the age of twenty-one years, or a female under the age of eighteen years, having reasonable cause to suppose the person to be under such age, except upon the application or consent in writing of the parent, master, or guardian, of such person, he shall forfeit a sum not exceeding one hundred dollars; but if there is no parent, master, or guardian, in this State, competent to act, a certificate may be issued without such application or consent.

SECTION 10. The clerk or registrar may require of any person applying for such certificate, an affidavit sworn to before a justice of the peace for the county where the application is made, setting forth the age of the parties; which affidavit shall be sufficient proof of age to authorize the issuing of the certificate.

SECTION 11. Whoever applying for such certificate wilfully makes a false statement in relation to the age or residence, parent, master, or guardian, of either of the parties intending marriage, shall forfeit a sum not exceeding two hundred dollars.

SECTION 12. When a marriage is solemnized in another State between parties living in this State, and they return to dwell here, they shall, within seven days after their return, file with the clerk or registrar of the city or town, where either of them lived at the time, a certificate or declaration of their marriage, including the facts concerning marriages required by law, and for every neglect they shall forfeit ten dollars.

SECTION 13. No magistrate or minister shall solemnize a marriage, having reasonable cause to suppose either of the parties to be under the age mentioned in section nine, without the consent of the parent or guardian having the custody of the minor, if there is any in the State competent to act.

SECTION 14. Marriages may be solemnized by a justice of the peace in the county for which he is appointed, when either of the parties resides in the same county; and throughout the State by any minister of the gospel ordained according to the usage of his denomination, who resides within the State and continues to perform the functions of his office; but all marriages shall be solemnized in the city or town in which the person solemnizing them resides, or in which one or both of the persons to be married reside.

SECTION 15. Marriages among the people called Friends or Quakers may be solemnized in the manner heretofore used and practised in their societies.

SECTION 16. Every justice of the peace, minister, and clerk, or keeper of the records of the meeting wherein any marriages among the Friends or Quakers are solemnized, shall make a record of each marriage solemnized before him, together with all facts relating to the marriage required by law

to be recorded. He shall also between the first and tenth days of each month return a copy of the record for the month next preceding, to the clerk or registrar of the city or town in which the marriage was solemnized, and shall when neither of the parties to a marriage resides in the city or town in which the marriage is solemnized, return a copy of the record of such marriage to the clerk or registrar of the city or town in which one or both of said parties reside. All marriages so returned shall be recorded by the clerk or registrar.

SECTION 17. Every person neglecting to make the returns required by the preceding section, shall forfeit for each neglect not less than twenty nor more than one hundred dollars.

SECTION 18. A justice of the peace or minister who joins persons in marriage contrary to the provisions of this chapter, knowing that the marriage is not duly authorized, shall forfeit not less than fifty nor more than one hundred dollars.

SECTION 19. Whoever undertakes to join persons in marriage knowing that he is not authorized so to do, shall be imprisoned in the jail or confined to hard labor for a term not exceeding six months, or pay a fine of not less than fifty nor more than two hundred dollars.

SECTION 20. [Unintentional informality does not invalidate marriage in other respects lawful.]

SECTION 21. The record of a marriage, made and kept as prescribed by law by the person before whom the marriage is solemnized, or by the clerk or registrar of any city or town, or a copy of such record duly certified, shall be received in all courts and places as presumptive evidence of such marriage.

SECTION 22. [Admission of respondent, general repute, &c., competent evidence to prove the fact of marriage.]

SECTION 23. [Marriage in foreign countries by a consul or diplomatic agent valid, and certificate of such consul or agent presumptive evidence thereof.]

[General Statutes—Chapter 29.]

OF THE PUBLIC RECORDS.

SECTION 10. [County, city and town records and files may be inspected and copied.]

SECTION 13. [Penalties; for altering or mutilating any record, paper, or written document, a sum not exceeding fifty dollars, —for wrongfully detaining records, and other documents, fifty dollars.]

[General Statutes—Section 1 of Chapter 174.]

Sentence when no punishment is provided.

SECTION 1. In cases of legal conviction, where no punishment is provided by statute, the court shall award such sentence as is conformable to the common usage and practice in this State, according to the nature of the offence, and not repugnant to the constitution.

[Chapter 138.]

AN ACT CONCERNING THE REGISTRY AND RETURN OF MARRIAGES, BIRTHS
AND DEATHS.

SECTION 1. The clerk of each city and town, (except in such cities and towns as choose a registrar, under the eleventh section of the twenty-first chapter of the General Statutes, in which cases the provisions of this act shall apply to the registrar,) for receiving or obtaining, recording, indexing and returning the facts relating to marriages, births and deaths occurring therein, shall be entitled to receive therefrom the sums following, viz. : for each marriage, fifteen cents; for each birth, thirty cents; for each death returned to him by the persons specified in sections two, three and four of chapter twenty-one of the General Statutes, twenty cents for each of the first twenty entries, and ten cents for each subsequent entry; for each death not so returned, but by him obtained and recorded, twenty cents.

SECTION 2. Chapter ninety-six of the acts of the year eighteen hundred and sixty-five, and so much of section seven of the twenty-first chapter of the General Statutes as is inconsistent herewith, are hereby repealed.

SECTION 3. This act shall take effect upon its passage.

[*Approved April 7, 1866.*

[Chapter 58.]

AN ACT RELATING TO THE MARRIAGE OF NON-RESIDENT PARTIES.

SECTION 1. Persons living without the Commonwealth and intending to be joined in marriage within the Commonwealth, shall, before their marriage, cause notice of their intention to be entered in the office of the clerk or registrar of the city or town in which they propose to have the marriage solemnized; and no marriage between such parties shall be solemnized until they have delivered to the justice of the peace, or minister in whose presence the marriage is to be contracted, a certificate from such clerk or registrar, specifying the time when notice of the intention of marriage was entered with him, together with all the facts in relation to the marriage required by law to be ascertained and recorded, except those respecting the person by whom the marriage is to be solemnized.

SECTION 2. Marriages may be solemnized by a justice of the peace in the county for which he is appointed.

SECTION 3. A justice of the peace or minister who joins persons in marriage contrary to the provisions of this act shall forfeit not less than fifty nor more than one hundred dollars.

[*Approved March 11, 1867.*

STATISTICAL NOSOLOGY

ADOPTED FOR REGISTRATION IN MASSACHUSETTS.

The following plan of a Nomenclature and Classification of Diseases does not essentially differ from that authorized by the Registrar-General of England, to be used in the preparation of the "Weekly Return of Births and Deaths in London," and is also, with slight modifications, identical with that embodied in a report drawn up by William Farr, Esq., M. D., of London, for the consideration of the International Statistical Congress which met at Paris in September, 1855; which report was printed in the Appendix to the Sixteenth Registration Report of the Registrar-General, England.

[NOTE.—This page and those that follow contain two lists of causes of death. The first,—that on the left side,—may be called the *TABULAR LIST*, and comprises all the heads which it is proposed to admit into the complete tables (IX. and X.) and under which *ALL* deaths, from whatever cause are finally distributed. It represents those diseases which, under the same terms, or terms strictly synonymous with them, are found in practice to occur most frequently.

The *SUPPLEMENTAL LIST* is *subordinate* to the first, and contains the principal *special* diseases which it may be considered desirable to note. The figures in this list indicate the corresponding heads of the tabular list under which such diseases are ultimately arranged.

Table VIII. includes both the Tabular and Supplementary lists; Tables IX. and X. the Tabular list only.]

CAUSES OF DEATH.

TABULAR LIST.	SUPPLEMENTAL LIST.
CLASS I. ZYMOTIC DISEASES.	<i>Of Diseases of Special Character, or rarely fatal.</i>
ORDER I.— <i>Miasmatic.</i>	
I. 1.—1. Smallpox, 2. Measles, 3. Scarlatina, 4. Diphtheria, 5. Quinsy, 6. Croup, 7. Whooping Cough, 8. Typhus (and Infantile Fever,) 9. Erysipelas, 10. Metria (or Puerperal Fever,) 11. Carbuncle, 12. Influenza, 13. Dysentery, 14. Diarrhœa, 15. Cholera Infantum, 16. Cholera, 17. Ague, 18. Remittent Fever, 19. Rheumatism,	I. 1.—1. Vaccination, not stated. Smallpox, (2d attack.) After vaccination. Erysipelas, &c., after vaccination. Chickenpox. Miliari. 3. Angina maligna. 4. Mumps. 7. Typhoid fever. 8. Phlebitis. Pyæmia. Hospital gangrene. Erythema. 17. Yellow fever. 18. Rheumatism, with pericarditis, or disease of heart.

CAUSES OF DEATH—(CONTINUED.)

TABULAR LIST.	SUPPLEMENTAL LIST.
CLASS I.—(Continued.)	
ORDER 2.— <i>Enthetic.</i>	
I. 2.—1. Syphilis, 2. Stricture of Urethra, 3. Hydrophobia, 4. Glanders,	I. 2.—1. Gonorrhœa. Purulent ophthalmia. 4. Necrusia, (usually from dissection wounds.) Malignant pustule.
ORDER 3.— <i>Dietic.</i>	
I. 3.—1. Privation, 2. Purpura and Scurvy, 3. Delirium tremens, } (Alcoholism), . 4. Intemperance, }	I. 3.—1. Want of Breast Milk. 2. Rickets. Bronchocœle.
ORDER 4.— <i>Parasitic.</i>	
I. 4.—1. Thrush, 2. Worms, &c.,	I. 4.—2. Porriço. Scabies. Tape worm. Hydatids.
CLASS II. CONSTITUTIONAL DISEASES.	
ORDER 1.— <i>Diathetic.</i>	
II. 1.—1. Gout, 2. Dropsy and Anæmia, 3. Cancer, 4. Noma (or Canker,) 5. Mortification,	II. 1.—3. Soft cancer. Sweep's cancer. Melanosis. Other kinds of cancer. Polypus (part not stated.), Lupus. 5. Bed-sore. Dry gangrene.
ORDER 2.— <i>Tubercular.</i>	
II. 2.—1. Scrofula, 2. Tabes Mesenterica, 3. Phthisis (Consumption of Lungs), . 4. Hydrocephalus,	II. 2.—1. Psoas (lumbar) abscess. White swelling. Cretinism. 2. Tubercular peritonitis. 3. Hæmoptysis. 4. Tubercular meningitis.
CLASS III. LOCAL DISEASES.	
ORDER 1.— <i>Nervous System.</i>	
III. 1.—1. Cephalitis, 2. Apoplexy, 3. Paralysis, 4. Insanity, 5. Chorea, 6. Epilepsy, 7. Tetanus, 8. Convulsions, 9. <i>Brain Diseases,* &c.,</i>	III. 1.—1. Myelitis. 4. Monomania. Fright. Grief. Melancholia. Rage. 6. Hysteria. 8. Laryngismus stridulus. 9. Neuralgia. Ophthalmia. Otitis. Disease of spinal marrow. Necrencephalus. (Softening of Brain.)

* Other diseases of the brain, or diseases of the nervous system, *not otherwise distinguished*, are referred to this head. *Mutatut mutandis*, the note applies to the corresponding heads in other Orders of this Class.

CAUSES OF DEATH—(CONTINUED.)

TABULAR LIST.	SUPPLEMENTAL LIST.
CLASS III.—(Continued.)	
ORDER 2.— <i>Organs of Circulation.</i>	
III. 2.—1. Pericarditis, 2. Aneurism, 3. <i>Heart Diseases,* &c.,</i> . . .	III. 2.—1. Carditis. Endocarditis. 3. Hypertrophia. Angina pectoris. Syncope. Arteritis. Hydropericardium.
ORDER 3.— <i>Respiratory Organs.</i>	
III. 3.—1. Epistaxis, 2. Laryngitis, 3. Bronchitis, 4. Pleurisy, 5. Pneumonia, 6. Asthma, 7. <i>Lung Diseases,* &c.,</i> . . .	III. 3.—2. CEdema glottidis. 4. Empyema. Hydrothorax. Diaphragmitis. Pneumothorax. 5. Pulmonary apoplexy. 6. Grindler's Asthma. Miner's Asthma. Emphysema.
ORDER 4.— <i>Digestive Organs.</i>	
III. 4.—1. Gastritis, 2. Enteritis, 3. Peritonitis, 4. Ascites, 5. Ulceration of Intestines, . . . 6. Hernia, 7. Ileus, 8. Intussusception, 8. Stricture of Intestines, . . . 10. Fistula, 11. <i>Stomach Diseases,* &c.,</i> . . . 12. <i>Pancreas Disease,* &c.,</i> . . . 13. Hepatitis, 14. Jaundice, 15. <i>Liver Disease,* &c.,</i> 16. <i>Spleen Disease,* &c.,</i> . . .	III. 4.—1. Glossitis. Stomatitis. Pharyngitis. Oesophagitis. 5. Perforation of— 6. Congenital. Femoral. Inguinal. Scrotal. Umbilical. Ventral. 7. Constipation. 11. Dyspepsia. Pyrosis. Gastralgia. Hæmatemesis. Mæna. Hæmorrhoids. 14. Gall-stones. 15. Cirrhosis.
ORDER 5.— <i>Urinary Organs.</i>	
III. 5.—1. Nephritis, 2. Ischuria, 3. Nephria, (Bright's disease,) . . . 4. Diabetes, 5. Calculus, (Gravel, &c.,) . . . 6. Cystitis, 7. <i>Kidney Disease,* &c.,</i> . . .	III. 5.—6. Cystirrheæ. 7. Diuresis. Hæmaturia. Dis. of prostate. Dis. of bladder.
ORDER 6.— <i>Generative Organs.</i>	
III. 6.—1. Ovarian Dropsy, 2. <i>Disease of Uterus,* &c.,</i> . . .	III. 6.—1. Ovarian tumor. 2. Hysteritis, (Inflammation of womb.) Uterine tumor. Polypus uteri. Orchitis. Hydrocele.

* See Note under III. 1.—9.

CAUSES OF DEATH—(CONTINUED.)

TABULAR LIST.	SUPPLEMENTAL LIST.
CLASS III.—(Continued.)	
ORDER 7.— <i>Organs of Locomotion.</i>	
III. 7.—1. Arthritis,	III. 7.—1. Ostitis. Periostitis. 2. Fragilitas ossium. Mollities ossium. Caries. Necrosis. Exostosis.
2. Joint Disease,* &c.,	
ORDER 8.— <i>Integumentary System.</i>	
III. 8.—1. Phlegmon,	III. 8.—1. Abscess (part not stated.) Boil. Whitlow. 3. Roscola. Urticaria. Eczema. Herpes. Pemphigus. Ecthyma. Impetigo. Psoriasis. Ichthyosis. Tumor (part not stated.)
2. Ulcer,	
3. Skin Diseases,* &c.,	
CLASS IV. DEVELOPMENTAL DISEASES.	
ORDER 1.— <i>Developmental Diseases of Children.</i>	
IV. 1.—1. Stillborn,	IV. 1.—2. Atelectasis. 5. Anus imperforatus. Cleft palate. Idiocy.
2. Premature Birth and Infantile Debility,	
3. Cyanosis,	
4. Spina Bifida,	
5. Other Malformations,	
6. Teething,	
ORDER 2.— <i>Developmental Diseases of Women.</i>	
IV. 2.—1. Paramenia,	IV. 2.—1. Chlorosis. Climacteria. Menorrhagia. 2. Miscarriage. Abortion. Puerperal mania. Puerperal convulsions. Phlegmasia dolens. Caesarian operation. Extra-uterine foetation. Flooding. Retention of placenta. Presentation of placenta. Deformed pelvis. Breast abscess.
2. Childbirth: (See Metria I. 1.—9.)	
ORDER 3.— <i>Developmental Diseases of Old People.</i>	
IV. 3.—1. Old Age,	
ORDER 4.— <i>Diseases of Nutrition.</i>	
IV. 4.—1. Atrophy and Debility,	

* See Note under III. 1.—9.

CAUSES OF DEATH—(CONCLUDED.)

TABULAR LIST.	SUPPLEMENTAL LIST.
CLASS V. VIOLENT DEATHS.	
ORDER 1.— <i>Accident or Negligence.</i>	
V. 1.—1. Fractures and Contusions,* . . . 2. Wounds, 3. Burns and Scalds, 4. Poison, 5. Drowning, 6. Suffocation, 7. Otherwise,	
ORDER 2.— <i>In Battle.</i>	
ORDER 3.— <i>Homicide.</i>	
ORDER 4.— <i>Suicide.</i>	
V. 4.—1. Wounds, 2. Poison, 3. Drowning, 4. Hanging, 5. Otherwise,	
ORDER 5.— <i>Execution.</i>	
V. 5.—1. Hanging,	
Violent Deaths, not classed,	
Sudden, cause unascertained,	

* Including "Railroad Accidents."

NOTE.—Cases of "infantile fever" are classed with those of typhoid, relapsing, and other continued fevers, under one name "typhus." Cases of "rheumatic fever" are classed with "rheumatism;" of "hemorrhage," and "abscess," with the diseases of the organs affected. Cases of "neglect" and "cold," except when the result of privation, (Class I. 3.—1,) are placed (with notes) under deaths by "accident or negligence," (V. 1.—7.) As "stricture of the urethra" is almost invariably the result of gonorrhœa, it is classed as I. 2.—2.
